# Let's read!

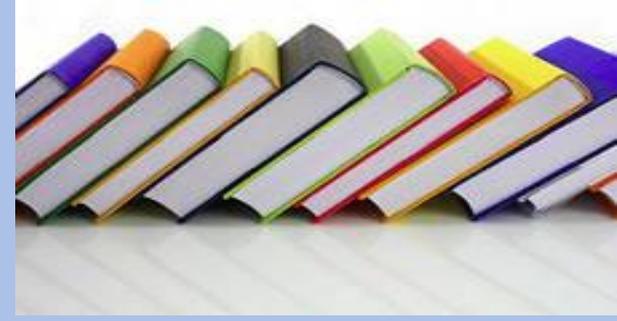

Dear friend,

You know, different people have different hobbies. There are a lot of interesting things that people like doing in their free time: reading, dancing, playing computer games and collecting things. My mother is fond of cooking. I like her pancakes a lot. My father's hobby is collecting cars. He has a great collection. My hobby is dancing. I began to dance when I was five. It is fun! And what are you fond of?

Best wishes,  
John
